

The Saba Tourist Office hosted a group of 9 members of the Brazilian Press on a day trip to Saba on June 17th. The group had arrived on GOL's inaugural flight on Saturday June 12th and were visiting the neighboring islands to gain firsthand knowledge of the destinations and to feature the islands as part of the Sint Maarten experience. Our thanks to Aquamania Adventures (The Edge) for providing complimentary transportation between the islands. The group thoroughly enjoyed their visit, and were pleasantly surprised to find such an abundance of Nature on the tiny island of Saba. They will include Saba in their various publications and assured us that the island will become popular with the Brazilians who visit Sint Maarten. Thanks to the Sint Maarten tourist office for including us in this venture which can only be a win-win situation for us all.
